AMONG THE RAILROADS.

STARTLING, IF TRUE.

An open rupture seems imminent be-ween the Eric and the Nypano companies. he former controls the New York, Laketween the Erie and the Nypano companies. The former controls the New York, Lake Erie & Western, and owns the C. & E. The connecting link between these lines, and which gives the Erie a complete line from New York to Chicago, is the Nypano. When the contract was made there was a good, big round rental. This was paid regularly. But at the last two annual meetings of the Erie the annual reports have dealt largely with the heavy grades and charp curves of the Nypano. Which prevented the Erie from handling its business with celerity. It is said that the latter has not made enough money off the Nypano to made and the Erie to pay rental. Wednesday, suit was paid by the Nypano to compel the Erie to pay rental. The latter refused on this ground of the rentals being unduly large. In other words, the contract between the two roads is in danger of going to pieces. The Erie wants the road, but at a lower figure, and the Nypano officials are determined to maintain the old agreement. piece of deception on the robbers Accordingly, a dummy train was made up

THE MAHONING.

The Judge, after hearing the application, concluded be could best determine the merits of the case lay visiting the ground on which the inse could best determine the merits of the case by visiting the ground on which the improvement was asked for. Accompanied by the attorneys and a representative of the bond holders, the Judge went north at ten o'clock, took the observation car of the orad, went to the proposed site of the bridge and granted the application for the bridge. The matter of the graveling at Haviland will be considered next Saturday. The road bed at Haviland is badly in need to the additional ballant asked for, as it is in a place where quite an amount of heavy freight is hauled and the road will suffer if the improvement is not made. the improvement is not made.

## Men's Clothing.

The novel and staple styles of America's best makers of Mea's Fine now on our counters. If there are any better made than we have here we don't know it. From \$5 to \$25 is a range of grades great enough for the most exacting to select from. But we desire to particularly emphasize the absolutely incomparable values to be found at \$10, \$10 and \$15; at these prices we have crowded on excellence, and variety of fabrics and style and workmanship and trimmings. The designs are delightfully fresh and fetching, the fitting properties are faultless-the prices must talk for themselves and advertise us.
